

Ethics In Politics: Three Lectures

ANIMAL CONCEPTS

A seminar hosted by the Tel Aviv University

June 16th 2014

Animal behaviour, cognition & wellbeing seminar

How much do we really know about animal minds? How can we use the tools of science to investigate what is happening in the minds of beings that, with just a handful of exceptions, are incapable of telling us? And perhaps most importantly, how can we use our knowledge of what animals are thinking and feeling in order to improve their lives? Join us for this one day seminar where we explore the modern science of animal behaviour and cognition, and discuss how it is being used to inform policy and practices to improve the welfare of the animals in our care, as well as in the wild.
