

Nicander: The Poems and Poetical Fragments

Nicander: The Poems & Poetical Fragments
A.S.F. Gow & A.F. Scholfield

Medicine, zoology, botany and mineralogy are the themes of Nicander's two extant poems of the Hellenistic period - *Theriaca* and *Alexipharmaca*. Fragments of other poems also survive, including some quite substantial pieces of his *Georgica*. His didactic poetry, along with that of his rough contemporary Aratus, had some influence on later poets, most notably Virgil and Ovid. This edition, with very full annotation and facing translation, was first published by CUP in 1953 and remains the only definitive edition of Nicander's works in English. This is first time it has been made available in paperback.
